國泰君安滙港資訊提供 「中介人方案」

助本地證券商托展「滬港通」商機

「滬港通」快將啟動，滙港資訊也全力配合，除了在交易系統和服務上作出準備之外，亦夥拍國泰君安為其他證券商提供中介人服務，期望令更多證券商能參與滬港通的商機。

中介人方案可讓已設有滬港通交易系統的證券商向未有連接滬港通的

The Shanghai-Hong Kong Stock Connect's launch is imminent. In preparation, Infocast has partnered with Guotai Junan Securities to provide an "Agent Solution" service to brokerages, allowing them quick and easy access to the business opportunities of the Stock Connect.

The Agent Solution enables brokerages to circumvent the need to connect directly to the Stock Connect.

經紀提供駁腳服務。選擇透過中介人方案來參與滬港通，實在是個毋須大量投資但又可抓住商機的辦法。

滙港資訊其中一個旗艦產品雙子星系統可以提供全面的服務，證券商可以用月費形式直接參與滬港通。

Instead, these brokerages become "underlying brokerages" that connect to an "execution broker" who executes trades on their behalf.

The Agent Solution brings benefits to both the underlying brokerages and the execution broker. Underlying brokerages receive a cost-effective and simple way to access the Stock Connect without requiring a formal infrastructure connection.

至於已連接滬港通平台的證券商亦可以透過系統提升，藉中介人方案吸納更多中小型證券商參與，刺激交投。

The execution broker can increase its trading volume and generate additional revenue. Notably, for both parties, InvesTrade requires zero upfront capital investment, meaning it is offered as a service without requiring investment on infrastructure.

Therefore the InvesTrade Agent Solution is an efficient solution with a low cost of admission.
